

General Information

History of the Journal

In the history of KONA Powder and Particle Journal, two organizations have been playing an important role. The one is the Council of Powder Technology, Japan (CPT) and the other is the Hosokawa Powder Technology Foundation (Hosokawa Foundation). The CPT was established in 1969 by Hosokawa Micron Corporation as a nonprofit organization to enhance the activities of research and development on powder science and technology. The Hosokawa Foundation was established in 1991 as a public-service corporation approved by the Ministry of Education, Culture, Sport, Science and Technology of Japan. The issues from No.1 (1983) to No.12 (1994) of KONA were published by CPT and the issues from No.13 (1995) by the Hosokawa Foundation.

The aim of KONA in the early days was to introduce excellent Japanese papers to the world and thus KONA consisted of papers recommended by some Japanese academic societies and translated from Japanese to English. From the issue of No.8, the CPT changed its editorial policy to internationalize the KONA and to incorporate papers by authors throughout the world in addition to translated papers. In response to this change, three editorial blocks have been organized in the world; Asian-Oceanian, American and European. The policy and system have not changed even after the Hosokawa Foundation has taken over from the CPT. From the issue of No.27 (2009), publication of translated papers has been terminated and only original papers have been published. The CPT is active still today and collaborates with the Hosokawa Foundation.

Aims and Scope
